Languages

English – A2
Urdu – A1

Summary

Web pages designing, good in numerous programming languages including HTML5, Python, CSS, MySQL.

Skill Highlights

- Python (Basic)
- C#
- Java (Basic)
- HTML, CSS

Experience

Fresh graduate having no work experience

Education

- **FUUAST Islamabad**
  BS Computer Science   2016-2020
  I am recently graduate in BS (CS) software system. I have a CGPA of 2.78 and have a good grip on main courses of computer science program, like Objective Oriented Programming, Web Programming, Software Engineering and Software Quality Engineering.

SEMESTER AND LEARNING PROJECTS

- **Hospital Management System**
  In this project I have done important queries of Data Base like ADD, VIEW, UPDATE, and DELETE.
- **Graphics Designing**
  In this project I have design a masjid the tool that I have use is 3dmax.

FINAL YEAR PROJECT PROJECT

- **Load Forecasting Using Neural Network (Data Science)**
  In this project Our main purpose is to forecast the electric load using neural network. After that we can calculate the predicted accuracy,
  The aim of this project is to reduce the peak hour load.
